DETAILED ACTION

Response to Arguments

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/03/2008 has been entered.

2. The application has pending claim(s) 1-4, 8, 10-11, 27 and 34-52.

3. In response to the Request for Continued Examination filed on 12/03/2008:

The "Claim rejections under 35 U.S.C. 112, first paragraph" have been entered and therefore the Examiner withdraws the rejections under 35 U.S.C. 112, first paragraph.

4. Applicant's arguments with respect to claim(s) 1-4, 8, 10-11, 27 and 34-52 have been considered but are moot in view of the new ground(s) of rejection because of the Request for Continued Examination (RCE).

5. Applicant's arguments, see pages 11-12, filed 12/03/2008, with respect to the rejection(s) of claim(s) 1-4, 8, 10-11, 27 and 34-52 under 35 U.S.C. 112 first paragraph have been fully considered and are persuasive. Therefore, the rejection has been

Art Unit: 2624

withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of *In re Bilski* as is discussed below.

Claim Rejections - 35 USC § 101

6. Claim(s) 1-4, 8, 10-11, 27 and 34-52 is/are rejected under 35 U.S.C. 101 as not falling within one of the four statutory categories of invention. Supreme Court precedent¹ and recent Federal Circuit decisions² indicate that a statutory “process” under 35 U.S.C. 101 must (1) be tied to another statutory category (such as a particular apparatus), or (2) transform underlying subject matter (such as an article or material) to a different state or thing. While the instant claim(s) recite a series of steps or acts to be performed, the claim(s) neither transform underlying subject matter nor positively tie to another statutory category that accomplishes the claimed method steps, and therefore do not qualify as a statutory process. For example the method steps of creating a color matching and coordinating reference system for use by manufacturers and consumers of products are not tied to another statutory category such as a particular apparatus (i.e. a computer processor for processing the specific method steps). Any amendment to the claim(s) should be commensurate with its corresponding disclosure.

Appropriate correction is required.
